"FREELY YE HAVE RECEIVED"

THE Nye county hospital is not merely a place where surgical Nevada acquiring mining property, re operations are performed and where people are nursed through illness. It is a home for the aged and physically helpless and the financially unfortunate. The county provides food, shelter, clothing and attention. The people in charge of the institution do what they can to ameliorate the condition of the inmates, but stern necessities lower ranch, about 14 miles below are all that the county affords

COMMISSION FORM OF GOVERNMENT NEEDED

HE very personnel of the board of county commissioners, which 1915 Buick 30-h. p. Touring Car, has taken upon itself the powers and prerogatives of a town hoard, is the best argument possible in favor of the commission form of government for Tonopah. The Bonanza does not seek to east any aspersions upon the men who constitute the present board, but it would greatly prefer to have them business men of this town, men who have property interests here and who would prove by the success with which they conduct their own affairs, that they are capable of BROWN-PARKER AUTO CO. properly conducting the affairs of the public.

In a county like this, where distances are magnificent, it would be laughable if it were not such a serious matter, to consider the call- NOTHING ADDS SO MUCH TO ing of a town board meeting when one of the members alone lives in the city, while the second is herding chipmunks in the Duckwater region and the third is probably doing assessment work at Ione. In order to hold a called meeting it would be necessary to charter an MERITOL RIBBON TOOTH auto and chase over a district larger than the state of Massachusetts in order to round up the majority of the board, and by the time they were found and corralled, the pressing need for the session would heads the list of pleasant tooth prepprobably have passed and another opportunity would have faded arations. It whitens and preserves the from view.

The rulers of the municipality that should be formed ought and purifies the breath. must be people of business sense, progressive in their ideas, eternally on the job and self-sacrificing of their personal interests in behalf of the public good. There are men of this type to be found in Tonopah. The town needs their services. If they were to head a commission government Tonopah would not remain a community with but a single industry. It would east off the intolerable system which now prevails, abolish its antiquated rules and step forward for inspection. proud to be reviewed.

THE MENACE OF GASOLINE

FIVE people have sustained serious burns in Tonopah during the past several weeks from using gasoline to clean clothes, the fluid being ignited by friction. Despite these warnings, the use will doubtless continue, until another word of warning is needed. Let it be also remembered that the big fires at Rawhide and Pioneer were caused by the careless handling of gasoline stoves-which must always be approached in fear and trembling. Gasoline is one of the best friends mankind possesses in this desert region, but it is also one of its most insidious enemies, all depending on the manner in which it is handled, which is frequently also the case in human relationships.
